

Pran Kishore

Mobile App Developer (iOS)
Kolkata, West Bengal, India

Profile

I am a native mobile application developer with 4+ years of experience in iOS. I believe design and code both play an important role in the success of an app. My passion is to analyse the app requirements, take it through the entire life cycle from design to production.

Experience

Software Engineer - Atos India Pvt. Ltd. May 2015 – Present

Analysing client requirements, suggesting feasible mobile solutions, Estimating time and effort for projects, assisting teams across the globe, for developing mobile practice. Providing training & knowledge sharing sessions.

Software Engineer – Customer First Infonet Pvt. Ltd Jan 2014 – May 2015

Developing iOS Mobile Application, working in a dedicated hiring model for offshore clients. Sharing code via GIT / SVN, Writing unit test code, distributing build's to internal testers as well as clients via various platforms. Checking app store guidelines & Evaluating project readiness for uploading to the app to store.

Software Engineer – Micronix Technologies Pvt.Ltd. June 2013 – Jan 2014

Evaluating client requirement, planning UI & UX with the design team, coding the recommended application, Monetizing the app with Ad's, publishing the app on the store.

Software Engineer – Ideo Techno Resource Pvt. Ltd. Mar 2013 – June 2013

Learning to develop REST-based web services on java platform that can be consumed by mobile devices, and developing API's that would expose the system functionalities.

Passion

Writing code for iOS

Case Study & Estimation

Testing (Automated & Manual)

Exploring different platforms

Tools Used

Xcode 8.3.2

Eclipse

Sql Developer

Sketch 41.2

Languages Known

English

Hindi

Bengali

Core iOS Skills

Objective C / Swift

Design patterns MVC, Delegation, Singleton. Concurrency management, collection types. ARC , Optional Chaining, Protocols , Extensions, Generics.

Frameworks

Address book, Assets Library, Core Graphics / Image / Location / Text/ Video / Motion, Foundation, Health Kit, Map Kit, Media player, Sql Lite 3.0, Security, Social. **XCTest for unit & UI testing.**

Features

App extensions, Handoff, UIKit Dynamics, Background fetch ,Siri kit, Size classes, Interactive APNS, Local notifications , Custom Gesture recognizers,

Core Services

GCD , In app purchase , SQL Lite , Core data.

App Management

Generating Certificate & provisioning, iTunes connect configuration App store upload, test flight distribution both internal & external, App analytics.

Xcode / Others

Integration of third party frameworks via COCOA PODS , Instruments, Time profiling, allocation, memory leaks, LLDB, Custom breakpoints, View Debugger, Touch ID, Source editor extensions , Barometer ,Three Axis Gyro, Accelerometer. **Ethical Hacking - Jailbreaking iPhone, MTM (Man in the Middle attack) , Reverse Engineering Binary.**

Education

B.Tech CSE- West Bengal University of Technology
2008-2012 - DGPA - 7.28

Heritage Institute of Technology, Kolkata, West Bengal

10 +2 Sc. CBSE
2004-2006 - 63%

ST. Josephs Public School, Samastipur, Bihar

10 th ICSE
2003 - 75%

ST. Paul's High School, Patna, Bihar

IT Skills

Language

Swift 3.1

Objective C

C & C ++

J2EE

HTML5, PL/SQL

Database

SQL SERVER 2008

ORACLE DATABASE 11g

Server

APACHE TOMCAT 6

Other Skills

High learning curve, Complex Problem solving

Experience in version control systems like GIT & SVN, with tools (Source tree) & CMD

Worked in a high performing scrum team at Deutsche Bank, Germany delivering app update every 2-3 months.

Passion for taking dev ops role to facilitate team members achieving high productivity. Implemented on board Git lab instance on ubuntu 14.04 , connected with CI/CD
